

CISCO CCNA

Certification Course

Zid Se Hi, Jeet Hai

Your Gateway to

Network Excellence

✓ Industry-Recognized Global Certification

✓ Hands-On Lab Training

✓ Expert Cisco-Trained Faculty

✓ 100% Placement Assistance

About the Course

What is CCNA?

CCNA (Cisco Certified Network Associate)

is a globally recognized entry-level certification from Cisco Systems — the world's #1 networking company.

It validates your ability to install, configure, operate, and troubleshoot medium-sized routed and switched networks.

CCNA 200-301 is the latest exam version covering networking fundamentals, IP connectivity, IP services, security fundamentals, automation & programmability.

Course Highlights

200-301

Exam Code

120 Min

Exam Duration

825-855

Passing Score

3 Years

Certification Valid

English

Exam Language

**Pearson
VUE**

Exam Center

1. Network Fundamentals

20%

- OSI & TCP/IP Models
- IPv4 & IPv6 Addressing
- Ethernet & Switching
- Wireless LAN (WLAN)
- Network Topologies

2. Network Access

20%

- VLANs & Trunking (802.1Q)
- Inter-VLAN Routing
- EtherChannel
- STP & RSTP
- WLAN Configuration

3. IP Connectivity

25%

- Static & Dynamic Routing
- OSPF (Single & Multi-Area)
- First Hop Redundancy
- IP Routing Table
- IPv6 Routing

4. IP Services

10%

- NAT (Static, Dynamic, PAT)
- NTP, DNS, DHCP
- SNMP & Syslog
- QoS Basics
- SSH & Telnet

5. Security Fundamentals

15%

- Threats & Vulnerabilities
- ACLs (Standard & Extended)
- AAA Authentication
- 802.1X Port Security

6. Automation & Programmability

10%

- SDN Concepts
- REST API Basics
- Ansible & Puppet Intro
- DNA Center Overview

Lab Training & Practical Skills

Course Details

Duration:	3 - 4 Months
Mode:	Offline / Online / Hybrid
Batch Timings:	Morning / Evening / Weekend
Language:	Hindi + English
Exam Prep:	Full Mock Tests Included
Lab Access:	Cisco Packet Tracer + GNS3
Certificate:	Airoman + Cisco (on clearing exam)
Batch Size:	Small Batches (Max 15 Students)

Hands-On Lab Topics

- Basic Router & Switch Configuration
- VLAN Setup, Trunking & Inter-VLAN Routing
- Static & Dynamic Routing (OSPF)
- NAT Configuration (Static, Dynamic, PAT)
- DHCP Server Configuration on Router
- ACL Implementation (Standard & Extended)
- SSH Remote Access & Security Setup
- EtherChannel & STP Troubleshooting
- WLAN Controller Configuration
- Network Troubleshooting & Diagnosis

Career Opportunities After CCNA

Network Engineer

₹4-8 LPA

Design, implement & manage enterprise networks

Network Administrator

₹3-6 LPA

Day-to-day operations of network infrastructure

System Engineer

₹4-9 LPA

Integrate networking with server & cloud systems

NOC Engineer

₹3-5 LPA

Monitor & troubleshoot network issues 24/7

Security Analyst (Jr.)

₹4-8 LPA

Implement basic network security & ACLs

Cloud Network Specialist

₹6-12 LPA

AWS/Azure networking with Cisco fundamentals

Why Choose Airoman?

Expert Faculty

Cisco-certified trainers with 10+ years of real-world networking experience

Live Lab Access

Hands-on Cisco equipment + Packet Tracer & GNS3 simulation tools

Updated Content

CCNA 200-301 v1.1 latest syllabus — always current with Cisco changes

Mock Exams

Full-length practice tests simulating actual Pearson VUE exam environment

Study Material

Printed notes + digital resources + video recordings of every session

Placement Help

Resume building, interview prep, and job placement support network
